

What is Safeguarding?:

Safeguarding is putting the policies and guidelines in place to protect the welfare of children and adults from people who may wish to cause them harm.

Coaches, officials, staff and volunteers working within table tennis who have regular contact with the most vulnerable within our sporting community have a key role to play in identifying and recognising when abuse may be occurring, whether that is inside or outside of our sport.

What is Child Protection?:

Child Protection is the part of the safeguarding process, protecting individual children identified as suffering or likely to suffer significant harm.

Who are Adults at Risk?

An adult at risk is an individual aged 18 years and over who:

- a) has needs for care and support (whether or not the local authority is meeting any of those needs) AND;
- b) is experiencing, or at risk of, abuse or neglect, AND;
- c) as a result of those care and support needs is unable to protect themselves from either the risk of, or the experience of abuse or neglect.

Recognising Abuse:

It is important that if anyone involved in table tennis sees or hears anything that gives them cause for concern relating to the welfare of either a child or an adult then they have a duty of care to report that concern.

Coaches, officials, staff and volunteers who work closely with those most vulnerable people in our sport are key in identifying and recognising when abuse is taking place. For more information [click here for Types of Abuse.](#)
